FORTIFIED Bronze is  
**FORTIFIED Roof!**

## **WE SIMPLIFIED!**

Benefits of FORTIFIED Roof™

- More meaningful to homeowners and roofing contractors
- A focus on the roof ensures quality in protecting a home's first line of defense
- Scope of work is limited to the Roofer
- Workflow streamlined for Evaluators and roofers, making process easier

## **WHAT'S DIFFERENT?**

Based on lab and field research, these requirements for overhang and gable end components are no longer included in Roof (formerly Bronze) designation:

- Uplift resistance of wide gable end overhangs
- Enhanced gable end sheathing
- Strengthened wide vinyl and aluminum soffits
