

## How To Update Your Individual Contact Information

As a certified FORTIFIED service provider, it's important to keep your individual information (name, phone, email, company, etc.) up-to-date. This allows IBHS to contact you with any updates to the program and to let you know about FORTIFIED events and opportunities in your areas. To make edits:

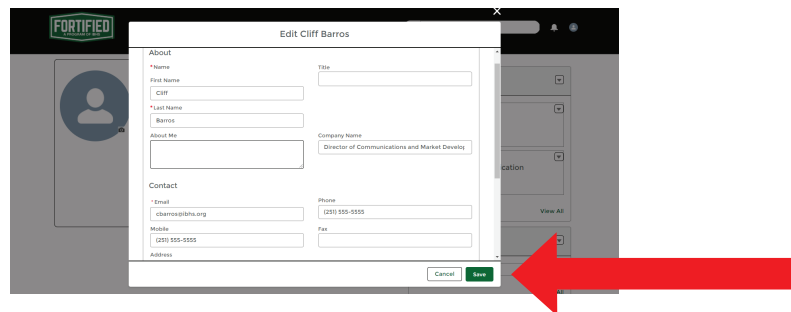

- 1 Login and navigate to your profile by clicking the icon in the upper-right corner, then select "Profile."

- 2 Click "Edit" button to update information, such as your email address, phone number, etc.

- 3 Add or update your individual contact information. Click "Save"
