

## CONFIDENCE STARTS WITH A FORTIFIED EVALUATOR

### RECOGNIZED FOR EXPERIENCE

FORTIFIED Volume Award Recipient

This award recognizes evaluators who have demonstrated exceptional commitment to helping homeowners, roofers, and builders achieve FORTIFIED designations.

As a FORTIFIED Volume Award recipient, we help document and verify a significant number of successful FORTIFIED projects every year. We know how to work closely with homeowners, roofers, and builders to achieve stronger, more resilient homes.

### WHY WORK WITH AN AWARD-WINNING FORTIFIED EVALUATOR?

#### We know the FORTIFIED standard

The FORTIFIED requirements are detailed and specific. We understand the standards and help guide projects through the evaluation and verification process.

#### We document every step of the process

FORTIFIED designations require documentation and verification. We collect and review the required evidence to support a successful designation.

#### We work with your roofer or builder

We collaborate with contractors throughout the project, documenting key requirements and ensuring FORTIFIED upgrades are properly completed and recorded.

#### We help make your home more resilient

By providing independent documentation, we help ensure your home meets the FORTIFIED standard and has protection proven to reduce storm damage.

## Let us verify your FORTIFIED project
